

SAT Prep at EAB

The SAT test is both difficult and demanding. It tests a wide range of topics, many of which appear in students' high school classes only briefly, years earlier, or not at all. Furthermore, the questions on the SAT exhibit very specific strategies and patterns that many students have never seen before. It's a rare high school student that's truly prepared for the SAT, even among students with a long track record of success in their regular classes. And despite the plethora of resources to practice and prepare for the SAT, we've never been satisfied with what's out there.

That's why we started from scratch and built our own course. For nearly 20 years, Higher Ground Learning has been providing SAT test preparation to students at international schools around the globe. As the SAT test matures, we continually modify our curriculum, diagnostics, and strategies for students aspiring to achieve their best. That means that every student we teach receives an up-to-date, comprehensive curriculum, taught by a superb instructor.

Our instructors have years of experience, top scores, and degrees from prestigious universities. But it's not just about credentials; our instructors provide an engaging, attentive classroom experience. They're only in town for a few weeks, but during their stay they're uniquely focused on the students, producing classes hand-tailored to each group. In addition, our instructors offer flexible 1-on-1 tutoring sessions to help students tackle their own unique challenges.

Higher Ground Learning is offering a 3-week SAT prep course at Escola Americana de Brasilia from April 8 – 25. The course includes:

- **3 full-length SAT practice exams.** Each includes a diagnostic report that breaks down performance and offers real data to help students improve.
- **22.5 hours of instruction time.** There's a lot to cover, so our instructors specialize in engaging with students and keeping classes upbeat and fun.
- **Unlimited 1-on-1 tutoring.** Our instructors are available whenever the students are: during open periods, after classes, on the weekend. All 1-on-1 sessions are included in the course fee – no extra charge.
- **Our comprehensive SAT curriculum.** This is uniquely ours, and we're proud of it. 20 years, thousands of students, and hundreds of tests worth of experience, all in one place.

One more thing – our instructors get results! If a student attends 100% of the sessions and doesn't gain 100 points or more on the next SAT, the class is free.

For registration, details about our guarantee, or information about Higher Ground Learning please visit our website at: hgl.co/catalog?category=International

If you have any other questions about the course, please don't hesitate to contact Colton Wright, our International Coordinator, at colton@highergroundlearning.com.
